

Dr Arijit Das's review article published by leading US-based journal of chemistry

By Our Correspondent

Agartala, Jul 23, 2014 : Dr Arijit Das who has already earned worldwide acclaim by inventing fourteen new methodologies and 34 formulae in chemistry was conferred suo moto membership of the prestigious American Chemical Society (ACS) last year for his innovative contribution to the subject. But Dr Das has secured recognition of his sterling talent from another prestigious body, the US-based chemistry journal "World Journal of Chemical Education" which has published his review article. The article entitled "Innovative and Time Economic Pedagogical Views in Chemical Education-a Review Article", 2014, Volume-2, No-3 , Pages-29-38 (Available online at <http://pubs.sciepub.com/wjce/2/3/1>, with digital object identifier No (DOI): 10.12691/wjce-2-3-1) is co-authored two other world famous scholars of chemistry, Dr R.Sanjeev, department of Pharmacy ,School of Health Science, university of Kwajulu, Natal, Durban, South Africa and Dr V.Jagannathan, Phd, Dsc, Professor ,Osmania university , Hyderabad.

In the article Dr Arijit Das has tried to 'hub twelve (12) innovative and time economic methodologies by including thirty two (32) new formulae in chemical education based on applied mathematics'. This will benefit students at all levels in chemical education and research. Dr Das has dedicated his article to his former meritorious student Uddipan Debbarma (17) who breathed his last prematurely from a heart attack on June 9 this year. Dr Das has

also expressed his gratitude to leading political personalities of the state for inspiration and encouragement.
